Five Lives Sacrificed at Speed Carnival.

Three more lives were sacrificed Saturday in the mad speed carnival inaugurated at the great Indianapolis speedway. One mechanic and two spectators paid the penalty of their lives to satisfy their mad desire for speed.

The fatal accident came when the car driven by Charles Merz, in the 300 mile race, lost a tire and crashed through the fence into a group of spectators spreading death and destruction in its wake. The dead are:

Claude Kellum, Indianapolis, mechanic in the car; Ora Jolleffe, Trafalgar, Ind.; an unidentified man. Besides the deaths, two serious injuries resulted during the day. Henry Tapping, of Indianapolis, was seriously injured in the fatal wreck as he had a compound fracture of his right arm, a broken nose and scalp wounds.

The Bourbon County Christian Bible School Convention will convene at the Mt. Carmel Christian church on Thursday, August 26. The convention will be opened with devotional service at 9:45 a. m., and will be continued during the day with an interesting program. Mr. W. O. Hinton, of this city, will lead the discussion on "Teacher Training." A big basket dinner will be spread a 12 o'clock. A large crowd is expected to be present.

Harvard Scholarship for Southern Boys.

A new scholarship has been founded at Harvard to be known as the James A. Rumrill scholarship, after which the alumnus of that name who graduated in the class of 1895. The widow has placed the sum of \$15,000 in the hands of the trustees, to be used in the bestowal of three scholarships each year, to students entering from secondary schools in Virginia, North Carolina, South Carolina, Florida, Georgia, Tennessee or Kentucky.

Two scholarships of \$225 each will be for student entering college as undergraduates, and the other for a student in one of the graduate departments.

The scholarships will be assigned on or about September 15 for the academic year, 1909-10. Applications should be in the hands of the secretary not later than September 1, 1909. The assignment of scholarships for the year 1910-11 will be made on or about January 1, 1910 and applications for that year should be in the hands of the secretary not later than May 1, 1910.

What Kind of an "Office."

Once upon a time a child who was asked on an examination paper to define a mountain range, replied: "A large-sized cook stove." The same method of reasoning seems to go with older growth. A recent examination paper at the Sheffield Scientific school at Yale contained the question, "What is the office of the gastric juice?" And the answer on one paper read: "The stomach."—Everybody's Magazine.

J. T. HINTON.

His Record as Business Man, Mayor, Etc.

The following is a brief history of the Hon. J. T. Hinton as business man, Mayor, Etc:

During his service in the City Council he was probably the most valuable member that ever served in that body. At this time many matters came up which were vital to the city's interest and needed the good business sagacity of just such a man. He was a member of the committee that had in hand the establishment of the water works system, which was perhaps the city's first stride toward the success she has attained. It is to Mr. Hinton's admirable judgment that the city owes the present location of the white and colored public schools, as both these sites were purchased by him while in the Council, with the understanding that the city might take them or not as they might choose. The city afterward took them at the same price at which he had bought them, and no one now questions the good judgment displayed in the selection of these locations. When the school building which was recently destroyed by fire was built Mr. Hinton superintended the erection from beginning to end without charging one cent for his services, and he has always shown his interest in the public schools by paying cheerfully more tax than any other citizen, and by standing by with all his might against any effort to hurt the school by strife against the School Board, or the superintendent or teacher believing that this institution belonged solely and alone to the people, and should be kept strictly free from the encroachment of any outside interests. With him as Mayor a most liberal and sympathetic policy toward the city school could be expected.

Not only has Mr. Hinton always been willing to devote his time and talent to the school interest without pay but many other enterprises owe much to his good management. He was one of the largest subscribers and one of the most zealous promoters of the opera house, having superintended the entire construction without any charges for his services. He gave time without pay in the erection of the public library, the Christian church and other buildings of public interest and value to the city.

As president of the Cemetery Company and without any remuneration whatever, he has paid off all the indebtedness of the company, built splendid roadways, and improved all the grounds and brought the company into good financial condition, by looking after its interest with the same business zeal and foresight with which he attends to his own personal affairs.

As a business man Paris has produced but few in his class. Beginning as a poor lad without a dollar, and with no resource but a clear intellect, a strong arm and dauntless courage, he has succeeded in amassing a large fortune, every dollar of which is invested in Bourbon county, and nearly all within the city limits of Paris. It would be difficult to find a half-dozen citizens of Paris who together have done as much as he in the way of increasing the tax values and attractiveness of the city by erecting and improving substantial and valuable business houses and residence property.

He has faith in the city and her people and has always been ready to contribute both his time and money to her charities and all public interests. No other citizen has as large an interest as he in the city's future success or sees more clearly the necessity for a just, equitable and business-like administration of her affairs. The city's interest is so closely allied with his own that no enterprise, from the largest mill to the humblest home, has anything to fear from the leadership of a man so wide-awake and so thoroughly versed in all business matters.

Too Busy for Church.

President Taft was kept from church service by the consideration of pardon cases Sunday. In the afternoon there was a cabinet meeting at which the personnel of the new tariff board and changes in the interstate commerce and the Sherman anti-trust acts were discussed.

Explosion on Launch.

Redford Turpin, Deputy Circuit Court Clerk of Warren county, was fatally burned and a gasoline launch destroyed, as a result of an explosion on the launch at Massey Springs, Green River, fourteen miles from Bowling Green.

Night Riders.

Near Mt. Olivet, night riders burned two large stacks of wheat, belonging to Mrs. John Struve, because, it is alleged, the latter refused to sign the tobacco pledge.

Increase Fifty Million Pounds.

According to estimates received by promoters of the Burley pool, there will be an increase of 50,000,000 pounds in the production of Burley tobacco in Central Kentucky, or rather the Burley District, this year over the production of 1907.

The American Bar Association.

The annual session of the American Bar Association, opening in Detroit Tuesday, will attract the usual number of eminent representatives of the Bench and Bar of the United States. Governor Willson of Kentucky is slated to deliver the annual address, and a number of other noted men will be included among the speakers.

Planning for Medical College.

Plans to establish a medical college for the Kentucky State University were discussed Saturday night at Lexington between prominent physicians of both Louisville and Lexington.

Caleb Powers, Candidate for Congress.

(Editorial from the National Monthly)

Caleb Powers, pardoned convict, named as an assistant assassin at the murder of Governor Goebel of Kentucky, proposes to drag that whole nasty mess back into the politics of the Blue Grass State. Caleb Powers was Secretary of State through fraud. He was in the Taylor crew of Republican politicians who proposed to hold the government of Kentucky from the rightful officials at all hazards—murder if necessary. And murder was necessary. The killing of Governor Goebel marked a vicious chapter in the political history of Kentucky. Those responsible for it never paid the full penalty for their crime. Caleb Powers was three times convicted of being an accessory to the assassination; twice sentenced to life imprisonment and once sentenced to death. He served the greater part of eight years in prison but was pardoned by a Republican Governor recently elected. Goebel's opponent for the gubernatorial chair was in exile for eight years through a refusal of Republican governors to honor Kentucky's request for extradition.

Powers comes from his prison cell claiming the wreath of a martyr. He proposes to strike down every hand that was raised in defence of the law of the land as it was applied to his case. He believes he was wronged. Measured by the yardstick of punishment as inflicted upon the man who actually fired the shot which killed Goebel, Powers may have been wronged. But what of Goebel's lot? In vain now the real friends of Powers urge him not to nurse his wounds in public. He has declined their advice. He appears to be a whirlwind of power. On the stump now he is convincing, and Kentucky loving a fighter, is showing some concern, if not admiration, for him. He may succeed in his determination to enter Congress for his home in Knox county is among the Republican strongholds of the State. His congressional district is represented by Don C. Edwards, last elected to Congress without Democratic opposition. Powers has entered the field to fight Edwards for the nomination, claiming that Edwards aided in sending him to prison.

The country appeared to have escaped from the odor of a distressing crime when the last of the cases pending were cleared by a pardon from the present Governor. Some he wrongfully pardoned before their case had even been pressed to trial. In the whole history of this case there seems to have been more or less of a misapplication of justice, and it may be that the administration of law was marked with error in the trials which resulted in the conviction of Powers, but the facts were sufficient to convince three different juries of his actual connection with that murder. Now the country is to be asked to walk through the dirty trial again. We do not anticipate that Congressman Edwards will decline to join issue with his warring antagonist. Powers may be the cause of more bloodshed in the Blue Grass State, but it is to be hoped that Knox county will settle the question at the ballot box and let no assassin's bullet rob the successful man of his seat as Goebel was deprived of the gubernatorial chair he had won.

It Pays.

When Senator Dolliver returned to his home at Fort Dodge, Iowa, after his unsuccessful fight for some measure of tariff reform, he found 15,000 of

his constituents waiting to greet him with cheers. Senator Cummins met a similar reception at his Des Moines home. These men may not just now stand high in the favor of the trusts that provide the Republican party with its campaign funds, but it is enough for them to know that their patriotic efforts are appreciated by Americans of all political parties who have no axe to grind. It pays to take one's stand for the right, it pays to work for the public welfare. Reckoned in dollars and cents men who serve special interests may win what seems to be large profits, but real recompense comes to those who, doing their duty as they see it, render real service to their fellowmen.

The Progressive Democrats.

The Chicago News is commending the progressive Republicans as guilty of unfairness towards the progressive Democrats. It says that in recent years the progressive element in the Democratic party "has not been of much service in compelling progress at Washington." That is a mistake; the progressive Democrats have furnished practically all the stimulus that reform has received. All the progress made has been along lines pointed out by the progressive Democrats. The Democrats have furnished the bulk of the votes on nearly every reform proposition. The only exceptions were in the tariff fight where some of the Democrats voted for low rates on certain raw materials. While the Democrats erred in doing so it must not be forgotten that in the main they stood for reform.

Let Home Paper Follow You.

The population of our American towns is so changeable nowadays that the newspaper man is often surprised to see how his subscription list changes from year to year. New names are coming in all the time, replacing the many who leave town and drop their subscriptions. It is often a matter of wonder to the newspaper worker that anyone who has lived in one place for a number of years can have made so few ties that he can get along without this regular record of the doings of his friends and the progress of his community that he once called his home. To a host of people, however, no sum brings better returns than the trifling amount paid for the regular letter from a former home in the shape of the local newspaper. In this way they keep in touch with old friends. Familiarity with their doings makes these friendships permanent. Old friends are the best in the world. They represent an investment in good fellowship, into which you have put much of the best of your life. Keep up with these old friendships and your old home, your friends who have gone away. It will pay.

Girls and Sanity.

The way a man can keep being crazy over a girl is for her to keep on being crazy over some other fellow.

Happiness.

If thou workest at that which is before thee, following right reason seriously, vigorously, calmly, without allowing anything else to distract thee, but keeping thy divine part pure, if thou should be bound to give it back immediately; if thou holdest to this, expecting nothing, fearing nothing, but satisfied with thy present activity according to nature, and with heroic truth in every word and sound which thou utterest, thou wilt live happy. And there is no man who is able to prevent this.—Marcus Aurelius.

Was Determined to Wed.

Swathed like a mummy and lying on a cot in the Pankusutawney (Pa.) hospital, James Sharkey, who a week previous fell 90 feet from a bridge, peeped with one eye from his bandages and watched the ceremony that made him a husband. Miss Bessie McLaughlin, daughter of Justice of the Peace J. B. McLaughlin, of Somerville, was the bride. The marriage register was signed by the injured man, but he had to hold the pen between his teeth to do it, making his mark. Sharkey fell from a railroad bridge and both arms and one leg were broken, his abdomen was ripped open and his face was bruised almost beyond recognition, and one eyelid split. He did not lose consciousness and demanded that his wedding plans be carried out.

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

STOCK, CROP AND FARM NOTES.

—A Christian county farmer claims to have made an average of 56 bushels an acre on his forty acre wheat crop.

—The onion growers in three counties in Southwest Texas cleared over six hundred thousand dollars on their onion crop this season.

—Captain T. J. Clay, of the Ballowan Stock Farm in Fayette, has sold for \$5,000 a yearling filly by imp. Adam and out of Ellengowan to Andrew Miller, an official of the New York Jockey Club and one of the owners of the Newcastle Stable.

—Eight cattle were recently killed by lightning on the farm of Mrs. Lavina Estill C. Cunningham.

—It is stated, as usual at this time of the year, that the Thanksgiving turkey crop will be scarce, as many of the fowls have died from the wet weather and some mysterious disease.

—The pecan crop of the southwest is going to be a record breaker this year. This crop is becoming more valuable each year, and the oil made from the nuts is far superior to olive oil for cooking purposes.

—We read that a Pennsylvanian sold a pair of hens for \$12, which he owned for 35 years, and which have been laying all that time. That man is entitled to the place of honor on the waiting list of the Ananias Club.

Big Corn Field.

—The biggest corn field in the State of Kentucky has been laid by. It is the field outlined by the gigantic horseshoe sweep of the Ohio river from Henderson round past Evansville, to Green river. It is the biggest because it is corn continuously for 6,000 or 7,000 acres, unbroken by fence, unrelied by any other crop—just corn, corn, and then more corn. It is estimated that over 300,000 bushels of corn will be raised in this monster tract this year, and this in spite of the fact that the farmers were scared out of a year's growth by the high water and for a time were not quite sure whether the high water would let them raise any corn.

Fad for Collecting Menu Cards.

The emperor of Austria's collection of menu cards is without its equal in the world. Numbering 3,700 examples, it consists of cards used at court banquets on festive occasions, and scarcely a royal house in England is unrepresented. The Austrian ambassadors at the various courts, knowing the emperor's hobby, took every opportunity of collecting for him specimens from all parts of the world. The cards are arranged under the towns from which they date, a shelf in the cabinet being devoted to each capital. One of the most interesting and beautiful of all is the card designed in black marble, with ivory lettering, by a French artist, for the festival given by President Faure in honor of the visit of the czar. A special cabinet is reserved for the menus of banquets given in honor of Bismarck.

School Improvement League in Session.

The Bourbon County School Improvement League held its regular annual meeting last Tuesday at the court house, with a large number of the members present.

The officers who served during the past year were re-elected as follows: President—Mrs. R. B. Hutchcraft. First Vice-President—Mrs. Wm. Talbott.

Second Vice-President—Miss Lucy Simms.

Secretary—Mrs. J. T. Vansant.

Treasurer—Mrs. Frank Lowry.

Most interesting reports were heard from the local leagues organized during the past year at the rural schools by the various clubs and organizations in the city—these local leagues being a part of the large Bourbon county League. Eight have been organized during the year.

7. Ruddle's Mills, Mrs. Wm. Doty, Pres.

Bourbon College, Mrs. M. G. Thomson, Com.

8. Centerville, Mrs. B. F. Buckley, Pres.

The best report was from the school at Cunningham, which had made almost \$30 at a strawberry supper, this amount to be used for greatly needed improvements in the equipment of the school. The following schools applied to have leagues organized as soon as convenient: Millersburg, North Middletown, Story Point, Rosedale, Hill and Monterey.

Mr. McChesney made a good report of the work accomplished in the last two years. Over \$5,000 has been expended in the county for building purposes.

\$1,000 for school at Clay's Cross Roads.

\$1,800 for school at Little Rock.

\$800 for school at Bethlehem.

\$800 for school at Letton.

\$600 for school at Cunningham.

In addition to these schools, Mr. McChesney reported that a colored school is being built at Ruddle's Mills and a new white school is to be opened in September in a rented building on the Ford's Mill pike. The school at Clay's Cross Roads was built largely by a local tax of 10 per cent. in addition to the regular county tax of 5 per cent. Mr. D. C. Lisle, from Jackson-ville, the President of the County School Board was present to give his report and to endorse most heartily the work of the league.

Miss Mary Spears made an announcement that Mr. Catesby Spears, who is thoroughly interested in the work, wishes to make a gift of \$250 to the League. He also makes the proposition that if the league will raise \$500 he will add another \$250 to his gift, and if the league will raise another \$1,000 he will make the fund \$3,000 altogether. The Chair appointed Mrs. E. F. Clay, Mrs. Wm. Myall and Miss Spears as a committee to take charge of this fund and called for open discussion of the subject. A report from the committee will be made at the next meeting. Mr. Spears' gift was accepted with the greatest enthusiasm and appreciation and the league sincerely hopes that his example will be followed by other such public spirited citizens.

The Chair appointed committees for the annual reception to teachers, trustees and members of local leagues to be held in the court house, Sept. 4, and the meeting was adjourned.

Gold Hoarded in India.

It was estimated by the London Statist in November, 1892, that in the 33 years ending with March of that year, the amount of gold which had gone to India and been retained, or in other words, hoarded, was no less than £256,324,000. This was at the rate of £10,750,000 per annum. A 50-year period is now completed and there is no reason to suppose that the Indian hoarding has become less. There are, in fact, some reasons which may be adduced for supposing that the amount of gold secreted has tended to increase.—Wall Street Journal.

Explorer's Tribute to Japan.

Writing in the London Times, Dr. Sven Hedin, the celebrated Asiatic explorer, says of Japan and the Japanese: "Wonderful country! Wide awake, lovable, joyful people. How old, exhausted and gray life is in other countries of Asia compared to that of the Land of the Rising Sun, where every man goes to work silently and dutifully, and the women smile even when the rain is coming down in streams from the dull gray heavens. A people who believe in themselves, their own greatness, their own future; a people steeped to the marrow in loyalty, sense of duty, perseverance and patriotism, a progressive and industrious people, awake, intelligent and well informed in all the ways of life."

Poorhouse Inmate Heirs Fortune

Through the death of Oliver Newhouse, of Indianapolis, Albert Newhouse, an inmate of a poor farm in Illinois, becomes heir to the former's entire fortune of \$200,000. The legatee is 30 years old and has been sick, peniless and friendless for some time. He had been employed at a Bloomfield, Ill., hotel as porter for a number of years, but six months ago was laid up with a severe attack of rheumatism and was compelled to go to the poor farm.

The estate comprises 300 acres of rich Indiana farm land, located within five miles of Indianapolis and valued at \$500 per acre. There is also the sum of \$60,000 in cash on deposit in Indianapolis banks.

His Photographic Plates Spoiled.

A new York photographer recently learned, to his sorrow, that the gas mantle emits a ray. He had stored away a large number of plates in a dark place and inadvertently left a gas mantle near the plates. They remained in the place for a month, and when the photographer took his plates out he found all of them fogged. The mantle contained thorium, a radioactive substance that penetrates a cardboard plate box as easily as it goes through glass. The man didn't know this, but now he knows better than to leave gas mantles near his plates.

Five hundred spittoons are to be provided for the new Capitol building at Frankfort. It would be better in the interest of decency and cleanliness to leave out the spittoons and establish and enforce an anti-spitting ordinance. Some of the Kentucky Colonels could not always hit the spittoon and a gob of tobacco juice on the marble floors would not be "a thing of beauty" until the janitor could get around to remove it.

BASE BALL.

FRIDAY'S GAME.

In one of the most interesting games of the season Lexington defeated the Paris team Friday afternoon by a score of 2 to 1.

The sensational catch of Viox, on short, saved the game to Lexington. It was a chance that is accepted about once during a life time. The Colts only made four hits off of Simms, while the locals touched Doyle up for six.

Lexington made their winning run in the tenth, Simms passed both Sheets and Harper, Murphy was out on a short fly to Barnett, Chapman laid down a bunt and beat it out on the throw to catch him at first Sheets scored. Following is score and summary:

Paris.....0000001000—1
Lexington.....0000000101—2
Two base hits—Ochs. Base on balls—off Sims, 7; off Doyle six. Struck out—by Sims 5; by Doyle 1. Stolen bases—Ochs, Dugger, Sheets, Chapman, Viox. Sacrifice hits—Hanni, Barnett, 2; Harper, Zurlage, Doyle. Umpire—Piepho.

SATURDAY'S GAME.

The Colts were defeated by the Bourbonites at White Park Saturday afternoon breaking the losing streak of the latter. The principal features were the fielding of Viox for the visitors and the work of Reggy for the locals on short.

Scheneburg was on the slab for the locals and while he allowed the Colts seven bingles, he kept them sufficiently scattered with the result that they were of little benefit. Robbins for the visitors showed good form and had a shade the advantage over the Paris twirler, allowing the locals only five hits.

Paris made their runs in the fourth, Robbins hit Seebach, Seebach was forced at second by Goodman's grounder to Robbins. Robbins walked Dugger and Reggy filling the bases. Barnett hit Viox and Goodman was out at the plate and in an effort to double Downing hit Barnett in the back the ball flying to right field both Dugger and Reggy scoring.

Lexington made their only run in the seventh, Kaiser beat out a bunt and went to second on Barnett's muff, scoring on Downing's single to center. Following is score and summary: Paris.....0002000000—2
Lexington.....0000001000—1
Batteries—Paris, Scheneburg (and Elgin); Lexington, Robbins and Downing. Errors—Paris 3; Lexington, 1. Two base hits—Dugger. Struck out—by Scheneburg 4; by Robbins 5. Base on balls—of Scheneburg, 2; off Robbins, 4. Stolen bases—Harper, Zurlage, Kaiser. Sacrifice hits—Harper, Zurlage, Scheneburg. Umpire—Piepho.

SUNDAY'S GAME.

The Bourbonites lost to the Pioneers in a slow game at White Park Sunday afternoon by the score of 6 to 2. The game was slow and never once did the locals have a chance to gain the lead over their opponents.

Poole, who returned to Paris Saturday after two weeks of idleness, essayed to pitch for the locals, but was relieved in the second inning by Winchell, who pitched gilt edge ball for the remaining seven innings, allowing the visitors only one scratch hit.

Golden was on the mound for the visitors and demonstrated his superior

pitching qualities by letting the Bourbonites down with five bingles and fanned seven of the best batters of the local team. The features of the game were the fine work of Ochs in center and Seebach on second for the locals and the fielding of Baird for the visitors.

The Paris boys handed the game to the Pioneers in the first inning when Maloney the first up hit to right center for two bases, Johnson bunted and beat it out, Maloney taking third, in an effort to catch Johnson at first Elgin threw wild Maloney scoring. Whitaker sacrificed, Johnson taking second, Dawson looked over four bad ones, Baird singled to center, Johnson scoring and Dawson going to third, Krug drove a long fly to center, Dawson scoring on the fly, Thoss out to center retiring the side.

Paris made one run in her half of the first. Ochs was thumped in the ribs and went to second on a passed ball, Hannigan popped to third, Seebach was out Baird to Thoss, Dawson missed the third strike on Goodman, Ochs scoring, Dugger singled to center Goodman taking second, Scott was out Golden to Thoss.

Richmond added two more tallies in their half of the second after Grobe went out on a fly to third and Golden went out to center. Maloney walked, Poole threw wild to Barnett, Maloney taking second, Johnson bunted and beat it out, Johnson going to third, Maloney scoring, Whitaker drove a beauty to right for two bases, Johnson scoring, Dawson popped to Seebach.

In the seventh inning Paris made a feeble rally and added one more tally. Winchell went out Golden to Thoss and Ochs fanned, Hannigan hit one back of first base which Thoss muffed, the ball taking a bad roll and before it could be recovered and returned to the field Hannigan had reached third. Seebach then hit a hot one to Johnson which the latter booted toward the bleachers, on which Hannigan scored. Goodman struck out retiring the side.

Richmond made one more in the eighth, Whitaker was out on a grounder to Barnett, Dawson walked, Baird singled to right day on taking third, Krug drove a long fly to right, Dawson scoring on the out, Thoss popped to Seebach. Following is score and summary:

Paris.....1000001000—2
Richmond.....3200000100—6
Batteries—Paris, Poole, Winchell and Elgin; Richmond, Golden and Dawson. Hits—Paris, 5; Richmond 6. Errors—Paris 5; Richmond, 1. Two base hits—Maloney, Whitaker. Base on balls—off Poole 2; off Winchell 2; Golden 4. Struck out—by Winchell 2; by Golden 7. Hit by pitcher—Ochs. Sacrifice hits—Krug. Passed ball—Dawson. Umpire Alloway.

MONDAY'S GAME.

In one of the shortest games of the season at White Park, the hustling Bourbonites pulled the ambitious Pioneers down one rung of the pennant ladder by defeating them by a score of 2 to 1.

The hits were nearly all long drives, seven of the ten hits made being for extra bases. Barnett, Dugger and Hannigan for Paris and Whitaker, Dawson and Krug for the visitors did the slugging. Dugger's hit to the right field fence was a dandy and on any other grounds in the league it would have been a home run.

Richmond made their lone tally in the first inning when Maloney singled, went to second on Johnson's sacrifice and scored on Whitaker's two-bagger. Tom Dugger then got mad at their impudence and refused to let them hit it further, except with two men out.

Paris won the game in the second inning after two were down. Scott walked and scored on the next ball which Barnett hit to right center for three bases, Barnett scoring on Krug's muff of Horung's return from right field by way of Johnson.

Paris threatened again in the sixth for a moment only when Dugger triple with two down, but Scott could not score him. Again in the eighth, Ochs went to first when Creager hit him, going to second on Hannigan's perfect sacrifice and to third on Goodman's single to third. Dugger, however, forced Goodman at second for the third out. The score and summary follows:

Richmond.....1000000000—1
Paris.....0200000000—2
Batteries—Richmond, Creager and Dawson; Paris, Dugger and Bevan. Hits, Richmond, 5; Paris, 5. Errors—Richmond, 1; Paris, 1. Earned runs—Richmond, 1. Two base hits—Whitaker, Hannigan, Dawson, Krug. Three base hits—Barnett, Dugger. Base on balls—Creager, 1. Struck out—by Creager, 3; by Dugger, 4. Hit by pitcher—Bevan, Ochs. Left on bases—Richmond, 4; Paris, 6. Sacrifice hits—Johnson, Hannigan. Stolen bases—Dawson, Thoss. Time—1:20. Umpire—Piepho.

NOTES.

The management of the Knoxville Base Ball Club are after two of the Bourbonites.

Tommy Sheets, manager of the Lexington Colts, broke the small bone in his left ankle when sliding at home plate in the tenth inning of Friday's game. It was the run that won the game.

The Hustlers, of Winchester, will be here today to meet the Bourbonites at White's Park. A rattling fast game may be expected.

Pitcher Jimmie Poole has returned to Paris to take his turn among the Paris twirlers. While Poole did not fare well in the game with Richmond Sunday, and was taken out of the box in the second inning, it is a fact well known that he has the goods and the folks around here believe in him.

DEATHS.

—Mrs. Lou Hutchcraft Fithian, wife of the late Dr. Wash Fithian entered into eternal sleep Friday morning at 11:30 o'clock, at her home on pleasant street, where she has resided for nearly half a century.

She had been confined to her bed for several weeks, when a week ago she was stricken with paralysis. She was born in Bourbon county on June 7, 1829, being in the eighty-first year of her age. In September 1850 she married Dr. Wash Fithian, of North Middletown, and several years afterwards located in Paris.

She was the eldest daughter of Reuben Hutchcraft, and is survived by one son, Dr. Charles N. Fithian; one daughter, Mrs. Frank Fairies; one sister, Mrs. Richard Harris, and her brothers, Messrs. R. B. Hutchcraft and Wm. H. Hutchcraft, all of Paris except the last named, who resides in Missouri. She is also survived by eight grandchildren and two great grandchildren.

Mrs. Fithian was a remarkable woman in many respects, noted for her vitality and industry to the very last, although she had been an invalid for a number of years. She had a bright mind probably could give more correct views of notable events that had occurred in Bourbon during her long and useful life than any other person in the county.

She was in fact a mother in Israel always ready and anxious to do some loving act of kindness for a neighbor, friend or acquaintance. She idolized her children, grand children and great grandchildren. A loving, trusting and devoted mother, a kind neighbor, a true friend. A noble christian woman has passed from our midst in the death of Mrs. Wash Fithian. She is not dead, but has only entered into that calm, peaceful and restful sleep that is the reward for all such women as this deceased.

Her funeral Sunday afternoon at the Methodist church, at three o'clock, was one of the largest ever witnessed in our city, and the many beautiful floral designs were but a slight tribute of love and affection that is held by the people of this community for the deceased.

The services were conducted by her pastor, Rev. M. T. Chandler, assisted by Rev. R. S. Litsinger, of the Episcopal church. Mrs. Fithian had from early life been a consistent member of the Methodist church. She was laid to rest in the Paris cemetery by the side of her honored and much beloved husband, Dr. Wash Fithian, who had preceded her to the grave. The pall bearers were: Mr. W. H. McMillan, Mr. J. W. Davis, Mr. John N. Davis, Mr. James McClure, Mr. H. A. Power, Mr. H. O. James, Mr. F. P. Lowry, Dr. F. L. Lapsley.

—Mr. Samuel Cecil Dailey, aged 84 years 10 months and nine days, died at his home in Jackson county, Ky., Saturday, August 21, of the infirmities of old age, heart failure being the immediate cause of his death. Mr. Dailey visited his son, Dr. M. H. Dailey, in this city, several years ago, and the many friends and acquaintances made at that time will regret to learn of his death.

Mr. Dailey was born in Tassel county, Va., on Nov. 2, 1824, and moved to Kentucky in early married life, having married Miss Virginia Minter, who survives him at the age of 82 years. For sixty-three years this happy couple journeyed through life side by side. When first coming to Kentucky they located in Wolfe county, but shortly afterwards moved to Jackson county, where they have since lived.

From early life Mr. Dailey was a consistent and devoted member of the Methodist church, and had taken the Bible as his guide through his long and useful life.

At his death it can be truthfully said that a grand old Christian man has passed to the reward awaiting the righteous.

He is survived by his wife and seven children, viz: Dr. M. H. Dailey, of Paris, Dr. W. G. Dailey, of Millersburg; H. H. Dailey, of Conway, Ky.; S. S. Dailey, of Mt. Vernon, Ky.; Mrs. E. G. Saulsbury, of Flat Lick, Ky.; Mrs. Henry Sandling and Mrs. Mary Dailey, who reside with their aged mother in Jackson county. The remains were brought to the home of his son, Dr. M. H. Dailey of this city, on the 5:30 a. m. train yesterday morning, and funeral services were held at the grave in the Paris cemetery at 10 o'clock, conducted by Rev. C. C. Fisher, of Millersburg.

The following were the pall bearers: C. W. Howard, G. S. Allen, W. H. Webb, Jos. M. Hall, Dr. F. M. Fairies, James McClure, F. P. Lowry, Geo. Wilder.

—Father John Joseph O'Neil, assistant pastor of St. Peter's Catholic church, of Lexington, and one of the best known priests of Central Kentucky, died at 5:30 o'clock Sunday morning from a sudden stroke of paralysis at the home of his father, James O'Neil, on the corner of North Limestone street, in Lexington. He had celebrated mass Saturday morning and during the day had gone about his pastoral duties as usual, in apparently excellent health.

Father O'Neil was 49 years old and is survived by his father, James O'Neil, who is 90 years of age, and the oldest Catholic parishioner in Lexington, and a sister, Miss Susie O'Neil.

Big Convention Planned.

Among the Christian churches of the Blue Grass section of the State there is much activity by way of preparation for the State Convention of the Christian churches of Kentucky, which will be held in Lexington September 20 to 23. This will be a centennial convention, inasmuch as the Christian churches are this year celebrating the one hundredth year of its organization. The convention will be a particularly interesting one, as it comes only a few weeks before the opening of the great international convention of that church, which will be held in Pittsburg, Pa. The State convention this year promises to be more largely attended than ever before, and will be participated in by the State organization of the Christian Woman's Board of Mission and the Bible schools, each of which will occupy a day's program during the meeting.

Bridge Gives Way.

On last Thursday afternoon on the Bethlehem pike, near the home of Mr. Earl Sellers, a large traction engine owned by Mr. J. E. Gray, while pulling a threshing machine, broke through the turnpike bridge. The engineer jumped in time to escape being precipitated with the engine to the stream below.

Killed by Train.

Mrs. M. A. McFaul, aged 62 years, was killed and a grand-daughter, Miss Williams, was seriously injured by a Southern railway passenger train east of Knoxville. They were walking the Southern railway double track and stepped out of the way of a freight on to the other track and were struck by a passenger train.

Coronation Lunches.

The most unceremonious coronation snack upon record is undoubtedly that piece of cold chicken which was thrown to and devoured by the late Lord Gwydyr in the gallery of Westminster Hall 89 years ago. But even the authorized refreshment of the highest personages is apt to be rather unceremoniously served on these occasions. Queen Victoria tells in her journal how, after she had been crowned, she "repaired with all the peers bearing the regalia, my ladies and train-bearers, to St. Edward's chapel, as it is called; but which, as Lord Melbourne said, was more unlike a chapel than anything he had ever seen; for what was called an altar was covered with sandwiches, bottles of wine," etc., etc. Lord Melbourne took a glass of wine, but the queen does not say whether she took any refreshment herself.—London Chronicle.

DESIRABLE

Bourbon Farm.

For purpose of division, I will offer for sale at public auction, at the court house door, in Paris, Ky., at 11 o'clock, a. m., on

Saturday, Sept. 25, 1909

the farm owned by and known as the Edwin Bedford farm, consisting of

400 Acres of Rich Farming Land.

The tract fronts on the west side of the Maysville & Lexington turnpike, and lies immediately on the suburban railway from Paris to Lexington, and is situated about five miles from Paris and twelve miles from Lexington. It is well watered, and has 180 acres of splendid tobacco land. It is one of the most productive farms in the Blue Grass region.

The improvements consist of a house of six rooms, and two tenement houses, two large tobacco barns, and all necessary farm buildings, such as stock barns, corn cribs, etc.

This is one of the most desirable farms between Paris and Lexington, and if you are looking for land that will increase in value and produce the finest crops, this is what you want.

Bold Jail Delivery.

One of the boldest jail deliveries on record in Bourbon county was planned and carried out at the Paris Jail Sunday evening a little after eight o'clock. Turnkey Allen Kiser entered the jail at 8 o'clock, the usual time to lock the prisoners in their cells, they being allowed the freedom of the corridors during the day.

As soon as Mr. Kiser entered the door he was grabbed by the prisoners, choked to unconsciousness and securing the keys and his pistol, the four negroes quietly walked out of the jail floor, around the building, crossing Houston in the rear of the jail on the sewer frame that holds the big iron pipes in position. Then it was easy for them in the high weeds.

They were seen leaving the jail by a lady residing across the street, who gave the alarm, and in short time the officers and crowd of citizens were present ready to lend assistance in capturing the escaped prisoners.

The leader of the four negroes is Will Leer, desperate young negro, who has served two terms in the penitentiary, and who was awaiting trial for assaulting Davis Hutchcraft and robbing him of \$7.50 a few weeks ago. If captured he will no doubt get a life sentence, if not something worse, as he is firmly believed to be the leader in this assault upon the turnkey.

Leer's fellow fugitives are Hugh Rogers, a light brown negro, weighing about 165 pounds, six feet tall, with head shaved; John Griggs, six feet tall, weigh 170 pounds, black; Robert Hughes, mulatto nearly white, aged 22, 5 feet 7 inches tall.

Leer is 5 feet 7 inches tall, black and weighs about 140 pounds. A reward of \$25 for either of the fugitives or \$100 for all of them has been offered. It is said that three negroes answering the description of the escaped prisoners got off of a freight train from Paris at Cynthiana about 1 o'clock Sunday night. All points have been notified and it is no doubt they will be captured in the next few days.

COLLIE DOGS AT THE STATE FAIR.

An Exhibit That Should Appeal to Progressive Farmers.

The collie dog exhibit from present indications will be bigger and more attractive than ever before. The number of prize rings have been increased and the premiums are more liberal than last year's show. It will be held under the rules of the American Kennel club and as four points are to be gained by owners toward a championship medal, it is confidently expected that there will be a number of high class exhibits from the eastern and northern states and it is not at all unlikely that some of the most celebrated kennels in the United States will be represented at this show. The exhibit will be conducted under the auspices of the Kentucky State Fair Collie club, which includes in its membership the most prominent collie fanciers in the state and gentlemen who are quite prominent in business and social affairs. The club officers are: Judge Geo. DuRelle, president, Prof. M. A. Scovell, vice president, W. J. Sellman, secretary, John H. Good, Joseph Burge, W. H. Giltner, W. R. Moorman, Jr., members of the executive committee. A number of special prizes have been secured and altogether the prospects are quite flattering. The collie has come to be recognized as a farmer's dog and for this reason this show should appeal to every progressive farmer in the Commonwealth. For many years past the dog show has been one of the very best attractions of the State Fair. This year with an increased number of dogs and a greatly increased interest in the show, it should be better than ever.

SOME FINE FEATURES.

Special Nights at the Kentucky State Fair.

Mr. A. B. Lipscomb, president of the Louisville advertisers club, will be at the head of the special nights' program. Mr. Lipscomb is ambitious to make the special night features a greater attraction than at any previous fair and with the addition of the night horse show, which has proved such a popular attraction at all of the leading State Fairs and Hippodrome performances in the pavilion, there is little doubt that his hopes will be realized. Associated with him are the following influential and enterprising gentlemen, each of whom will strive to make his night the best: Prof. E. H. Mark, of the Louisville public schools, who will be chairman Monday night, designed as school children's night; Mr. Louis Seelbach, chairman Tuesday night, which has been named German-American night; John Rechtenwald, president of the Louisville federation of labor, chairman Wednesday night, labor night; Col. W. B. Heldebrand, commander of the first Kentucky regiment, chairman military night, Thursday night; John J. Barry, chairman Irish American night, Friday night; J. E. Dorland, chairman farewell night, Saturday night.

Saturday should be an entertaining day to the children, as the Shetland pony classes will all be exhibited, and to the general public on account of the horse championships being awarded that day.

MACHINERY EXHIBITS.

Plenty of Space For Such Displays at Kentucky State Fair.

Applications for space in the machinery department are being received daily at the State Fair offices. The importance and magnitude of exhibits in this department are growing every year. While the same advantages are not offered to exhibitors as are given them by older institutions in the way of machinery halls, there will be plenty of space in one of the most conveniently located parts of the grounds for exhibits of this nature, and every other facility and accommodation will be at their disposal. Among those who have signified their intentions of making displays at the fair this year are manufacturers of engines, pumps, stock scales, fences, mills, road machines, vehicles, harvesting machines, haying machines, planters, plows, and everything in the way of modern up-to-date machinery and farming utensils. The farmer who would keep abreast of the times, must necessarily be instructed in the use of better methods of farming and the use of improved and labor saving machinery on the farm, and can find no stronger object lesson than at an exhibition of this kind.

AN INNOVATION.

Hereford Sale at the Kentucky State Fair.

For the first time at the Kentucky State Fair there will be held a public sale of registered Hereford cattle on Thursday, Sept. 16th, 1909. This sale will be made up of some of the best cattle owned by Kentucky Hereford breeders, and something like fifty head will be offered.

If this sale is a success, as is confidently believed it will be, in the future public sales of other breeds of cattle will probably be held, as well as registered sheep and hogs. Any farmer wanting foundation stock of Herefords would do well to be on hand at this sale, as the cattle will be sold irrespective of price, to the highest bidder.

For catalog, entry blank or other information, write J. W. Newman, Secretary, 320 Paul Jones Building, Louisville, Ky.

THE LATEST IN SUMMER DON'TS

Most people have a collection of hot weather don'ts. Here is a list:

Don't work too hard.
Don't think too hard.
Don't fail to play.
Don't, if you are a man, wear a waistcoat.
Don't, if you are a woman, fail to remember that nature did not mean you to be a harnessed, curvaceous creature with no dimension save length, but instead a being whose whole body, in summer especially, should be allowed to breathe.
DON'T WORRY.
Don't hurry.
Don't wear black.
Don't lose your temper.
Don't forget to bathe often.
Don't scold the children.
But do drink water early, often, late.
Don't feed a baby every time it cries. The chances are it needs water more than food.
Don't wait until your own throat is parched and then gulp down drafts of ice water. Every time you have nothing else to do swallow a little more cool, pure water.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Good for You.

"Turn that writing paper the other side out," said a lady in a dry goods store this morning, as the clerk was putting up her purchase. "I don't want to be a walking advertisement to your store. I read the papers as all intelligent people ought to do, and I think in them is the place to advertise your business. Instead of asking your customers to carry you sign around with each purchase of goods, go tell the people through the papers what you have to sell and how you sell it."

Wanted to See Her Face.

A special from Nicholasville says Conrad Cobb, a well to do farmer, whose wife died at her home near that place several weeks ago, went to the grave and exhumed the body Friday night, and came to town Saturday and told what he had done. He said he wanted to look upon her face again. He details the sight of the body. He then reentered it. It is believed that his grief has affected his reason, though he is apparently sane and does not seem to realize that there was anything wrong in his strange conduct.

Decreasing Weight In Summer.

To the many persons who desire to reduce their avoirdupois the good old summer time offers a ready and simple solution to their problem.

The surest way to reduce flesh without adopting means that will strain or weaken the body or system is to WEAR A WOOLEN SWEATER on warm days and take walks or other moderate exercise. Jockeys, prizefighters and other athletes to whom weight is a vital matter follow this plan.

The discomfort of the heavy garment in warm weather decreases as the person becomes accustomed to the procedure, and the burden becomes less onerous day by day.

Of course if a person will wear the sweater and perform some violent forms of exercise his weight will decrease all the more rapidly.

Laxative for Women Free

There is a great difference in the purposes to which a laxative should be put. Tablets and pills, salts, etc., are usually violent purgatives or cathartics, and altogether too powerful for the average person.

A woman at all times needs only a mild laxative—in fact, none other is needed by anyone, weak or strong though they may be, for the object is simply to move the bowels, and if a gentle laxative will do it, what is the use of a violent one? Dr. Caldwell's Syrup Pepsin has earned a well-deserved vogue among women and children and old folks—people who must necessarily be careful of what they take. It is a liquid laxative, tonic and admittedly the greatest stomach, liver and bowel remedy before the American people. The price is only 50 cents or \$1 a bottle, as it comes in both sizes, and it is sold by all druggists. Its pleasant taste and gentle action make it an ideal remedy for women in constipation, torpid liver, sour stomach, sick headache, heartburn and such like digestive complaints. Its use for a short time will remove the trouble entirely so that future medication will be unnecessary. Its tonic properties build up the stomach and intestinal muscles so that they act naturally again. That this is so is the experience of many heads of families, like Mrs. Brannan, of Alvarado, Va., Mrs. K. L. Stout, of Louisville, Ky., and numerous others; in fact, way out in Williams, Cal., as Mrs. J. E. Blackwell, of that place, writes, the whole town seems to be using it.

If the remedy is new to you and you want to make a trial of it before buying, send your name to the doctor's address as below and a free test bottle will be sent you. Then, if results are satisfactory you can buy it of your druggist.

If there is anything about your ailment that you do not understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell bldg., Monticello, Ill.

A School Question.

Whether or not a county school board can appropriate money to run wagons to haul children to and from a consolidated schoolhouse was argued Tuesday before Judge E. C. O'Rear of the Court of Appeals, by attorneys representing taxpayers of McCracken county, who have obtained an injunction to prevent the expenditure of the money, and Thomas McGregor, representing the State and the county school boards. In McCracken county four school districts were consolidated, as is provided for in the Sullivan school law, passed by the last Legislature. The county school board then ran vehicles to and from the schoolhouse where the children of the consolidated districts were taught, the children being hauled free over regular routes. Objection was made to this use of the money and suit was brought by taxpayers of McCracken county. The provision which allows the county school board to consolidate school districts was attacked, but the main contention was that the money for running vehicles could not be expended legally. The case came up before Judge W. M. Reed, Circuit Judge, and he granted an injunction to restrain the board from spending the money. He held that the board had a right to consolidate school districts, but did not have a right to spend money for the vehicles to haul the children to and from the schoolhouse. An appeal was taken from this decision and the whole question was presented to Judge O'Rear on Tuesday. It is probable that the question will eventually be referred to the full Court of Appeals, as what is being done in McCracken county is also being done in other counties of the State.

The Secret of Long Life.

A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a Godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c. at Oberdorfer's drug store. aug

Going Up, Coming Down.

The grandest sights in the world can be seen from the Holz Captive Balloon, at Bourbon fair, Paris, Sept. 7-11. You can see almost every town in the Blue Grass. The trips are made in perfect safety, the balloon being held captive by a large cable attached to a drum on the operating engine. The cable is let out to allow an ascension and wound in to bring you back to earth. You may go nearly one-fourth mile high, but the sensation of going up is a thousand times more pleasant than anything you can imagine. This is the only captive balloon south of the Ohio River and will be seen at the fair in this section but the old Bourbon.

Architecture.

"A man who is the architect of his own fortune should get a great deal of comfort out of life." "But he doesn't as a rule," answered Miss Cayenne. "He's too busy building additions."

An Ancient One.

M. Hamelin, the police magistrate of Paris, was the victim of a venerable practical joke on April 1. It began in the early morning with the arrival at his residence in the Avenue Henri Martin of several carts of coal, followed by a continuous procession all day of other vehicles conveying similarly unordered goods—five pianos, jars of cod liver oil, hams, mineral waters, and vegetables—while among the visitors whose services were supposed to be required were an embalmer, a masseuse, an undertaker, and half a dozen pedicures. Altogether 322 vehicles drove up to the house in the course of the day. Amid the confusion M. Hamelin went quietly off to preside as usual at the police court.—London Daily News.

How to Fight the Flies.
Flies are responsible for the spread of contagious and infectious diseases. They adhere to window panes, dishes and other perpendicular surfaces by means of minute globules of oil, and often their oily footprints are GERM LADEN. Flies should be excluded from sickrooms. They carry filth germs in, and they carry disease germs out. Food supplies should be particularly guarded. The same flies that are attracted to the food on the table and are so especially fond of milk likewise delight in filth, even of the most dangerous kinds, which they are sure to carry around with them on their feet. Fly maggots live and grow in manure and filth, and mature flies hover about the same material to lay their eggs and seek bits of food. Cleanliness about the kitchen and back yard, screen doors, window screens, fly paper and fly poisons are the housekeepers' principal weapons in warfare against flies.

Privations, sacrifice, incessant toil by day and intense study by night... often fashion great Americans out of rough hearts of oak encased in frames of granite mold and dominated by an iron will.

SIX GREAT DAYS.

Special Day Program at the Kentucky
State Fair.

The special day program is one of the most interesting parts of the State Fair. It will bring many additional thousands of visitors to the Fair. Fred W. Kelsker is the general chairman of the special days' committee. Monday, Sept. 13th, the first day, will be known as school children's day and Louisville Times day. Prof. J. G. Grabbe, state superintendent of public instruction, who has been made chairman of this day's program will make an extraordinary effort to secure a record breaking attendance of school children from the city of Louisville and state of Kentucky. As this is the opening day, the ceremonies will likely include an address by the governor and a number of other distinguished speakers are expected to honor the Fair with their presence on this occasion.

As the naming of each day for the daily papers of Louisville is an innovation in the Special Day program, each paper will try to make its day the biggest, and the power of the press once wielded in behalf of an institution like this can bring tremendous results. Mr. Robert W. Brown, managing editor of the Times, is vice chairman for the first day. Tuesday, Sept. 14, will be Fraternal Day and Louisville Herald Day. Mr. Charles B. Norton is chairman, and Mr. George A. Newman, editor of the Herald, is vice chairman.

All the leading fraternal organizations in the state will be asked to join in a grand parade and make this a general reunion or common meeting ground for all the fraternal organizations within the state. On this day the judging of all departments will begin. Horses and mules and cattle will be exhibited in the livestock pavilion. The sheep, swine, poultry and other departments will be judged in separate arenas within their department enclosures.

Wednesday, Sept. 15, will be Louisville and Southern Indiana Day and Courier-Journal Day. Mayor James F. Grinstead of Louisville will be chairman; Mayor Jacob Best of New Albany, Mayor E. N. Flynn of Jeffersonville, and Graham Vreeland, managing editor of the Courier-Journal, will be vice chairmen. The mayor of Louisville and the mayors of the two neighboring cities across the river will each issue a half-holiday proclamation. Some of the best horse rings of the week are scheduled for this day. Also jack stock, Hereford and Angus cattle, Ayrshire cattle, Duroc and Chester White swine, Hampshire, Cotswold and Dorset sheep will be judged. Thursday, which has always brought the largest attendance at past fairs, has been very appropriately designated as Kentucky Day, Press Day and Good Roads Day. More Kentuckians will be seen together than on any single day or single event of the year. Mr. T. C. Underwood, president of the Kentucky Press Association, is chairman of the day, and will have associated with him all the active and public-spirited newspaper men of the state, which alone should make it a banner day.

Hon. Joseph F. Bosworth, president of the Kentucky Good Roads Association, is vice chairman. As an active campaign for the good roads amendment to the constitution will be waged throughout the state the coming fall, it is likely that some of the big guns for this much needed public improvement will open their first fire at this meeting. President Bosworth believes that nearly all the good roads enthusiasts in the state, which equal a good-sized army, will be on hand. Several rings of horses will be shown in the pavilion, and Shorthorn cattle, Hampshire, Tamworth and Yorkshire swine, American Merino, Delaine Merino, Rambouillet, Lincoln and Cheviot sheep and Angora goats will be judged.

Friday Sept. 17th, will be Equity Day, Tobacco Growers' Day, Grange Day, Louisville Post Day. Colonel C. M. Barnett, president of the American Society of Equity, will be chairman, and F. P. Wolcott, master of the Kentucky State Grange, and Mr. Boyd G. Boyle, managing editor of the Post, are vice chairmen. This should certainly be a farmer's day, and if all indications do not fail, the "Sons of the Soil" will be out in greater numbers than was ever known before. The tobacco growers from the dark patch, the Green River district, and the Burley section, are all coming strong, and each will try to outnumber the other. The Patrons of Husbandry, that noble band of enlightened farmers who have worked wonders for the betterment of agricultural industry in this country, will likely attend in goodly numbers from this and other states. The judging in all departments except horses will be concluded this day, and in the afternoon there will be a grand parade of all livestock winners in the Livestock pavilion. These animals will be decorated with ribbons worn at this fair and other great fairs and expositions this year, which will form a most pleasing sight for Fair visitors, and especially enthusiastic lovers of blooded stock.

Saturday, the last day, will be Everybody's Day, and all who have not been included in the foregoing days may be very aptly classed in this.

Evarts' Long Whip.

Years ago, says the New York Press, when before the state court of appeals Edward J. Meegan, then a striking lawyer, saw a gaunt young man with a big head hurling sentences at the judges with a snap at the end of each one, very much as the old-time stage driver used to swing his whip lash around his leaders' heads. "The sentences came out thick and fast and ponderous," says Meegan, "but he was dexterous, and each time the snap went where he intended, right by the judges' ears. It was as interesting to me as a man casting for fish. I asked a lawyer beside me who the little chap was. In astonishment he replied: 'Why, that is William M. Evarts, the great William M. Evarts of New York.'"

Erudition.

The following gems of literature are bona fide examples of the erudition possessed by certain students who are taking this year's course of English at Harvard. An effort to write something about the word "Vulgate" in connection with the Bible resulted in the production of "In the fourteenth century lived Vulgate. He translated the Bible for Roman Catholics." Athithophel is a name not wholly unfamiliar to Biblical students, but perhaps this will give new information concerning him: "Athithophel was the first man after the flood to lead a holy existence, but after him and before the time of Christ there were a number of Christians ensconced in different places."—Christian Register.

Passed With Little Opposition.

The Fuller Prohibition bill Wednesday passed the Alabama Senate with little opposition. There was not a vote against the elimination of that section which sought to prohibit the newspapers and magazines from advertising liquors for sale.

Trade Outlook Good.

The general trade outlook is most encouraging, the volume of orders in the hands of merchants and manufacturers being probably greater than at any time since the fall of 1907. There is every prospect of a rising tide in business and of unprecedented activity this coming winter, if not before.

Changes in Rules.

The officials of the Indianapolis speedway, where five persons were killed during the auto races last week, have made important changes in contest rules. The most important one is that no driver in a long-distance race can continue more than 100 miles on a stretch, and that the driver must submit to a physical examination before re-entering the race.

Wellman's Flight a Failure.

Walter Wellman's second attempt to sail over the North Pole in a balloon has resulted in failure. The giant dirigible balloon, America, in which Mr. Wellman and his party of three set out upon their perilous flight, Sunday met with a mishap after it had proceeded about 32 miles from the starting point. Mr. Wellman and his party succeeded in making a landing without injury to any member, and returned to the starting point on board the steamer Fram, which also towed in the disabled balloon.

Done For.

A New York woman has used a whip instead of the divorce courts. She has ruined her matrimonial future.—Washington Post.

Chew Liquid Food Too.

The increased amount of liquids consumed during the summer months renders the following advice of Horace Fletcher of additional importance at this time of the year. The famous expert on foods claims that LIQUIDS SHOULD BE "CHEWED"—that is, insalivated—as well as solids. He says:

"Adult man was not originally intended to take his nourishment in a liquid form; consequently all liquids having taste, such as soup, milk, tea, coffee, cocoa and the various forms of alcohol, must be treated as solid solids and insalivated by holding them in the mouth, moving the tongue gently, with straight up and down masticatory movements, until their taste be removed.

"Water, not having taste, needs no insalivation and is readily accepted by the fauces."

Knock Down Wanted?

An interesting news item states that a woman shot through the door and "killed a strange burglar." Of course the lady ought to have been given an introduction and the bold intruder was remiss in not sending up his card.—Atlanta Georgian.

Gain and Pain.

Gain is according to pain—they are twin brothers, they resemble each other so closely their most intimate friends cannot tell them apart—the one plants the tree, the other cares for it until the fruit is matured.

Ambergris and Amber.

There is some popular confusion of ambergris with amber; in fact, however, there is no relation between them. But for a long time the nature of ambergris was hidden in mystery. In ancient days it was commonly believed that it flowed up from the bottom of the sea. Sinbad the Sailor tells of a spring of ambergris that he found; but it was in a crude state. The fish swallowed it, and then disgorged it in congealed form, and in this condition it floated on the surface of the sea. This story harmonizes perfectly with the old Arabian belief.
